## Gifts that keep on giving . . .

We are very excited about the Season we're building for you and the special offers this time of year that give you exceptional pricing while providing essential funding to the Weathervane. Operating expenses accumulate year round: up to \$115,000 before opening night. Each year, we face a cash flow challenge in securing performance rights, begin hiring and auditioning, and continue preparations for the coming summer.

**Your supporting gifts make a difference, keeping ticket prices moderate and affordable.** Without your generosity, ticket prices would be more like the \$55-\$75 you would see for the same caliber of professional entertainment... and we can only make special early offers like these (and offer in-Season specials) because of your gifts to the Annual Fund. Operating support provides just about 78% of the basic cost to operate the Theatre - and we, of course, remain grateful for the continued support of so many. **A generous donation before the end of the tax-year can benefit you: please consider what options are available for your charitable giving as tax laws are continually changing.** (We can receive stock gifts as well as IRA disbursements.)

Thank you in advance as you make early gift purchases for yourself or others and consider an added gift to the Theatre and the joy it will bring to countless audiences who - like you - will enjoy a wonderful coming Season.

*From the Board of Directors and all of us here, best wishes for a joy-filled holiday season and a happy 2019!*

*By the way: your payment by check saves the Theatre the additional costs of credit card processing.*
